*"There's great land-based fishing to be had off the piers and jetties for species such as Snapper, Bream and Whiting. It's where the Yarra River meets the Bay so it is a productive area for fish and marine life. The great thing about going recreational fishing is that it's such a family-friendly activity. Three places I would particularly recommend would be Warmies, Gem Pier and off Altona Beach Pier. All great spots!"*
